Hi Emilio, Cristina, and Mark!

Attached to this email are two versions of the revised facilities proposal draft document: one is a redlined version; the other is a clean version (the content is exactly the same for both versions). The revisions were made collaboratively by Jason Mandell (our communications consultant), Nick Watson (our statewide facilities director), and me.

Our goal in revising the document was to incorporate some of the feedback we have received from charter leaders over the past few days. There is still more work to be done, but we hope that this version is an improvement on the last. At your convenience, please take a few moments to review the document. Once you have completed your review, please feel free to share your feedback with me by email or by phone. If at all possible, I'd love to get your feedback by 3pm tomorrow (if that timeline is not feasible, please let me know).

We will discuss the revised document with the larger group (the LAAC and the Facilities Policy Working Group) this Thursday at 2pm, but I wanted to get your eyes on the document first. Thank you in advance for all of your help with this effort. All of you have been so critical to moving the ball forward on this.

Wholeheartedly,

Ebony
